WORD HUNT
STUDENT USER GUIDE

A simple guide to opening your lesson, reading stories, finding key words and answering questions.

START HERE — OPEN YOUR LESSON

1. Open the lesson file

Download the Lesson file shared by your teacher. Open it in a web browser such as Chrome, Edge or Safari.

2. Wait for the Ready to hunt? screen

Your teacher has already prepared the story. The lesson opens with the story ready for you to begin.

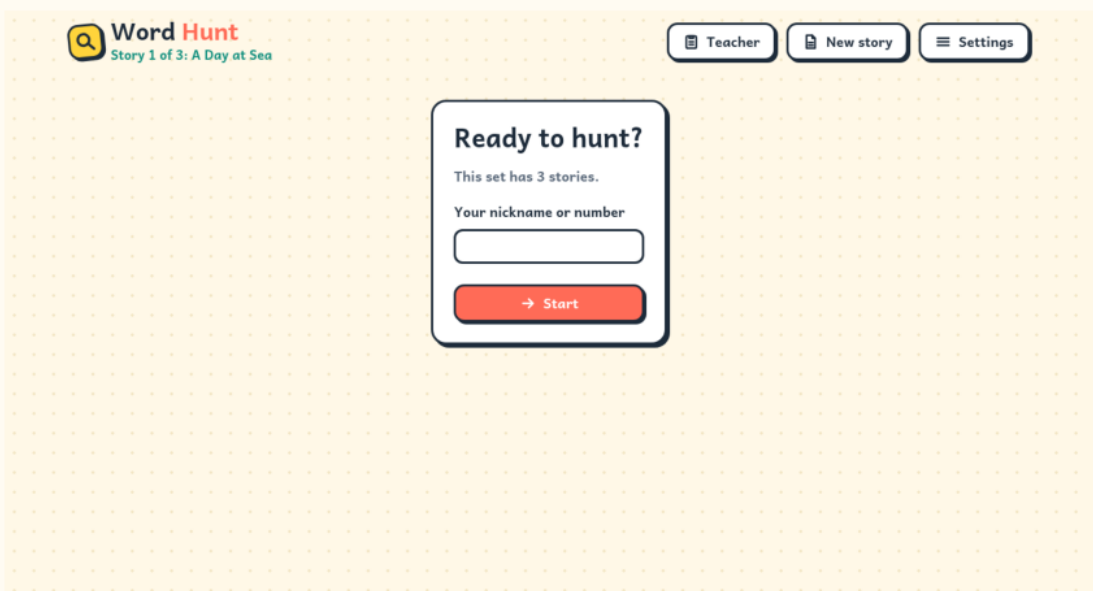

Figure 1. Actual Word Hunt Ready to hunt? screen from the supplied website. It shows the nickname/number field and Start button.

3. Enter your nickname or number

Type your name, nickname or student number in the box labelled Your nickname or number.

4. Click Start

Press the coral Start button to continue.

YOU DO NOT NEED TO…

Create a story, use an AI prompt, paste story text or upload a JSON file. Your teacher prepares the lesson and shares the Lesson file with you.

PART 1 — LEARN HOW TO PLAY

5. Read the How to play instructions

The website explains the activity in five steps: read the question, pick one key word, search for it, read the sentences with yellow words, and choose your answer.

6. Choose how to begin

Select Start practice for a guided practice activity, or Choose level to go straight to the level choices.

CHOOSE YOUR LEVEL

Choose the level that matches your confidence. Read the description on each level card before selecting it.

EASY GUIDED

This is a short story. Find a name or a number. Follow the guidance and learn how to search.

MEDIUM ON YOUR OWN

This is a longer story. Pick your own key word. Watch for small but important words such as no, not, he and she.

HARD BEAT THE CLOCK

This is the Medium story, with a countdown clock. Read carefully and keep an eye on the timer.

READ THE STORY AND SEARCH

Read the passage carefully, then use the search box to find details that help answer the question.

PART 2 — READ THE STORY

7. Read the passage

Read the story shown in the Story panel. Look for important details such as names, places, numbers and actions.

8. Use Read aloud if available

If the Read aloud button appears, you can select it to hear the story read aloud.

9. Read the question

The question appears in the question panel. Read it carefully before searching for an answer.

TIP FOR MEDIUM AND HARD

The level instructions remind you to choose your own key word. Be careful with no, not, he and she because these small words can change the meaning.

PART 3 — SEARCH FOR A KEY WORD

10. Pick one key word

Choose a name or a thing from the question. For example, if the question asks about Maya, try searching for Maya.

11. Click the search box

Find the search box in the game area and click inside it.

12. Type and search

Type your chosen word. Press Enter or click the Search button.

13. Read the yellow matches

Word Hunt highlights matching words in yellow. Read the whole sentence around each match to understand the information.

ANSWER THE QUESTIONS

Use the story information to choose the best answer. Read the feedback and manage your attempts carefully.

PART 4 — CHOOSE YOUR ANSWER

14. Check the sentences

Read the whole sentence around the yellow match. If needed, search for another useful word from the question.

15. Choose an answer option

Select the answer that matches what the story says. If your answer is wrong, read the feedback before trying again.

16. Use your tries carefully

The default setting is 3 tries per question. The How to play screen explains that fewer tries mean more stars. Your teacher may have changed this setting.

17. Watch the search allowance

You have a limited number of searches for each question. The default is 3 searches, but your teacher may have changed it.

18. Watch the Hard timer

Hard has a countdown clock. The default time is 60 seconds per question, but your teacher may have changed it.

IF YOUR SEARCH FINDS NOTHING

A word can change its form. Try another key word from the question. The practice guide also suggests picking a different word under the search box if the first word does not help.

MOVE THROUGH THE STORIES

Continue until you have completed all the stories assigned by your teacher.

PART 5 — MOVE THROUGH THE STORIES

19. Continue to the next question

After answering, read the feedback and use the on-screen button to continue.

20. Move to the next story

If your teacher has shared more than one story, a screen appears between stories. You can review that story's answers, then select Next story.

21. Finish the activity

After the final story, Word Hunt displays your results and the available result options.

PART 6 — CHECK YOUR RESULTS

22. Look at your score

Check the marks and performance information shown on the results screen.

23. Review your answers

Select Review answers to see your responses and where the answers are found in the story. Select Back to results when you finish reviewing.

24. Choose what to do next

You can select Play again or Choose level from the results screen.

REMEMBER

Take time to read the feedback. Reviewing your answers helps you understand which details in the story support the correct answer.

SEND YOUR RESULTS TO YOUR TEACHER

When you finish the activity, submit your results using one of the options on the results screen.

PART 7 — SUBMIT YOUR RESULTS

OPTION A — EMAIL TEACHER

Select Email teacher. A window will show the teacher's email address and subject. Choose Open Gmail or Open email app to prepare the email. If needed, select Copy email text and paste it into an email yourself.

OPTION B — COPY CODE

Select Copy code. Word Hunt copies your result code. Send the copied code to your teacher using the method your teacher has requested. If you completed several stories in one lesson, the copied code includes your results for those stories.

OPTION C — SAVE RESULTS

Select Save results if you want to download a copy of your results. Follow your teacher's instructions about whether you need to submit this file.

PART 8 — IMPORTANT REMINDERS

- Read the question carefully before searching.
- Choose a useful key word — a name or a thing.
- Press Enter or click Search after typing.
- Read the whole sentence around each yellow match.
- Pay attention to small words such as no, not, he and she.
- Use your tries and searches carefully.
- On Hard, watch the countdown clock.
- Review your answers and submit your results to your teacher.

YOUR WORD HUNT MISSION

Read carefully. Search smartly. Think before you answer.
Learn from every question!
